

04-14-16 CCA: STACKED LAZY 3 RANCH NAMED WINNER OF LEOPOLD CONSERVATION AWARD...

The Turecek family of the Stacked Lazy 3 Ranch were named the 2016 recipients of the Leopold Conservation Award. Pictured from left to right: Tyler, Paige, Travis, Sandi, and Keven Turecek.

STACKED LAZY 3 RANCH NAMED WINNER OF LEOPOLD CONSERVATION AWARD

Arvada, CO – (April 14) The Stacked Lazy 3 Ranch, owned and managed by Keven and Sandi Turecek, has been selected as the recipient of the 2016 Colorado Leopold Conservation Award®.

In 1949, renowned conservationist Aldo Leopold published a book entitled “*A Sand County Almanac*,” he called for an ethical relationship between people and the land they own and manage, which he called “an evolutionary possibility and an ecological necessity.” The Leopold Conservation Award is given in his honor and recognizes extraordinary achievement in voluntary conservation. The award aims to inspire landowners and provide a visible forum where farmers, ranchers, and other private landowners are recognized as conservation leaders. “The conservation work done on this ranch was done because it was the right thing to do,” said Sandi Turecek. “We weren’t looking for recognition, so it’s an honor to be recognized for the past 30 years of taking care of our land.”

Located near Deer Trail, Colorado, the Stacked Lazy 3 Ranch is a diversified enterprise with a commercial cow calf herd, as well as dry-land crops. The Tureceks have worked diligently to convert hundreds of acres of marginal farm ground back to native grass pastures. They have installed over

50,000 feet of terraces, repaired riparian areas, and planted thousands of trees into shelter belts, as well as repairing old and building new retention dams. As a way to prevent erosion and retain the limited soil moisture, the family converted their operation to no-till crops many years ago. They also manage their cow herd with conservation in mind. "Our cows are Angus cross and size is a determining factor," said Keven. "We select for a slightly smaller framed female, which can maintain a good body score and still raise a good calf with limited resources."

The Tureceks will receive their award at the Colorado Cattlemen's Association annual convention in Colorado Springs on June 13th. As the winner, they will receive a crystal trophy depicting Aldo Leopold, and a \$10,000 cash award. "It's always an honor to recognize one of our members for their many years of labor and dedication," says Bob Patterson, president of Colorado Cattlemen's Association. "The Leopold Conservation Award provides a platform for us to show our appreciation for the voluntary conservation work done by members of our industry".

"The Turecek family represents the very best of production agriculture. They are outstanding stewards of the land, passionate advocates for conservation and genuinely good people," said Erik Glenn, Colorado Cattlemen's Agricultural Land Trust executive director. "Their love for the land and their family is evident in every decision that they make and that results in outstanding management decisions that produce one of the most well run farming and ranching operations in Colorado."

"Tri-State and its member electric cooperatives and public power districts are proud to support the Leopold Conservation Award," said Mike McInnes, chief executive officer of Tri-State Generation and Transmission Association. "The award's recognition of environmental stewardship in protecting of our rural landscapes reflects the strong conservation ethic of rural communities and their electric cooperatives."

The prestigious award is presented annually by Sand County Foundation, the Colorado Cattlemen's Association, the Colorado Cattlemen's Agricultural Land Trust, Tri-State Generation and Transmission Association and American AgCredit. Award applicants are judged based on their demonstration of improved resource conditions, innovation, long-term commitment to stewardship, sustained economic viability, community and civic leadership, and multiple use benefits.

The award is made possible through the generous contributions from many organizations: including Tri-State Generation and Transmission Assoc., American AgCredit, The Bird Conservancy of the Rockies, The Nature Conservancy, Michael Dowling, DuPont Pioneer, The Mosaic Company and the USDA Natural Resources Conservation Service.

[ABOUT THE LEOPOLD CONSERVATION AWARD](#)

The Leopold Conservation Award is a competitive award that recognizes landowner achievement in voluntary conservation. The prize consists of a crystal award depicting Aldo Leopold, along with a cash award of \$10,000. Sand County Foundation presents Leopold Conservation Awards in California, Colorado, Kansas, Kentucky, Nebraska, South Dakota, Texas, Utah, Wisconsin and Wyoming.

[ABOUT SAND COUNTY FOUNDATION](#)

Sand County Foundation is a non-profit conservation organization dedicated to working with private

landowners to advance the use of ethical and scientifically sound land management practices that benefit the environment.

[ABOUT COLORADO CATTLEMEN'S ASSOCIATION](#)

Colorado Cattlemen's Association is a trade association that represents the state's more than 12,000 beef producers; CCA serves members by speaking out on behalf of Colorado's beef producers and landowners to state and national legislators, agencies, media and consumers.

[ABOUT COLORADO CATTLEMEN'S AGRICULTURAL LAND TRUST](#)

Recognizing the need to help Colorado's ranching and farming families protect their agricultural lands, in the face of growing development and economic pressures, the Colorado Cattlemen's Association in 1995 formed the Colorado Cattlemen's Agricultural Land Trust (CCALT). To date, CCALT has partnered with hundreds of ranching families in the protection of more than 465,000 acres.

[ABOUT TRI-STATE GENERATION & TRANSMISSION ASSOCIATION](#)

Tri-State Generation & Transmission Assoc. is a wholesale electric power supplier owned by the 44 electric cooperatives and public power districts it serves. Tri-State also generates and transports electricity to its member systems across Colorado, Nebraska, New Mexico and Wyoming.

[ABOUT AMERICAN AGCREDIT](#)

Founded in 1916, American AgCredit is part of the nationwide Farm Credit System, and is the nation's 6th largest Farm Credit cooperative. American AgCredit specializes in providing financial services to agricultural and rural customers throughout California, Nevada, Central Kansas, Northern Oklahoma, Central and Western Colorado, and Northern New Mexico –as well as to capital markets customers in 30 states.
